WORK EXPERIENCE

SENIOR ASSOCIATE CONSULTANT | MAY 2022 - PRESENT

INFOSYS | SCANIA, SÖDERTÄLJE

- Engineered and administered enterprise-grade Jira infrastructure on AWS, implementing automated provisioning, monitoring, and scaling to ensure high availability and performance

- Automated CI/CD workflows and cross-tool integrations (Jira, Git, Jenkins, Confluence) to streamline issue tracking, release management, and deployment pipelines across global teams.

- Developed Python-based automation scripts using Jira REST APIs to collect metrics, synchronize environments, and generate operational reports—reducing manual workload and improving visibility.

- Collaborated with development, QA, and operations teams to enhance digital delivery pipelines for a global B2B manufacturing enterprise, improving release speed and reliability.

SYSTEM ENGINEER | NOV 2019 - MAR 2022

TATA CONSULTANCY SERVICES | ERICSSON

- Managed and optimized Jenkins pipelines for large-scale enterprise CI/CD workflows, reducing delivery times.

- Built automation scripts in Python to gather Jenkins logs, improving troubleshooting and reducing downtime.

- Collaborated with distributed teams to ensure seamless product delivery and DevOps adoption.

- Awarded On-the-Spot Award for successfully implementing automation initiatives that improved team efficiency.
